

Dear Parents and Guardians,

Your child now has access to **Xello**, a new online program that helps your child discover the future pathway that's right for them.

In today's changing world, students need the critical thinking and decision-making skills to manage their futures for the long-term. Xello uses an investigative, discovery-based learning process with four key components:

**1 Build Self-knowledge**

Your child will define their interests, skills, preferences, and aspirations so they can explore the opportunities right for them.

**2 Explore Options**

Students learn about career possibilities and educational pathways by exploring rich, engaging content and lessons.

**3 Create a Plan**

Your child can create dynamic actionable plans that outline the steps needed to achieve school, career and life goals.

**4 Learn & Reassess**

Through a series of interactive lessons, your child will develop the skills and knowledge they need to be successful in school and beyond.

As your child builds their Xello profile, they can share it with you for feedback and encouragement.
